The advertisement for bids is for the award of a Job Order Contract (JOC). Work is accomplished by issuing Task Orders to the successful contractor during the term of the contract. The scope of work may include general electrical work, including medium-voltage 12kV and low-voltage 460V electrical power systems for industrial facilities, and associated work such as demolition, underground raceways, and system integration.

On July 1, 2014, the registration program under section 1725.5 of the California Labor Code went into effect. The program requires that all contractors and subcontractors who bid or work on a public works project register and pay an annual fee to the California Department of Industrial Relations (“DIR”).

No contractor or subcontractor may be listed in a bid or awarded a contract for a public works project unless registered with the DIR as required by Labor Code section 1725.5 [with limited exceptions from this requirement for bid purposes only under Labor Code section 1771.1(a)].

The Contract Term is 365 consecutive calendar days from the date of notification to Contractor of executed Contract or when the cumulative amount of issued Task Orders reaches the Maximum Contract Value, whichever comes first. The Contract Term may be extended up to 5 years to complete the work of issued Task Orders, but no new Task Orders will be issued after the first 4 years.

The Maximum Contract Value is \$5,000,000, with a guarantee to receive opportunity to perform a minimum of \$50,000 worth of Task Order(s) to be issued during the Contract Term. For more information, contact the JOC Manager, **Teenchee Le** at (628) 271-2208.
